Spiritual Guidance

Miracle in Malawi

A little girl named Evelyn in Malawi, Africa, was helping with the cooking at the youth home where she lived.

Something happened and the oil in the large pot over the fire splashed onto her face and burned her badly. She was rushed to a doctor and everything was done to help her. But, even though doctors and medicine can help a burn victim, sometimes that person still has scars to carry with them throughout their lives. There was some concern that her eyes were burned and she would be blind.

Sewing Threads of Hope Throughout the World

Assisting Women
Out of Extreme Poverty
Into Self-Sufficiency

Give Back Hope International began this "pay it forward" program in January of 2018. Since then, **Women to Women** has assisted women to lift themselves out of extreme poverty by purchasing brand new treadle sewing machines, beginning in Malawi. Each woman in the program donates 10% of proceeds from her business to buy another

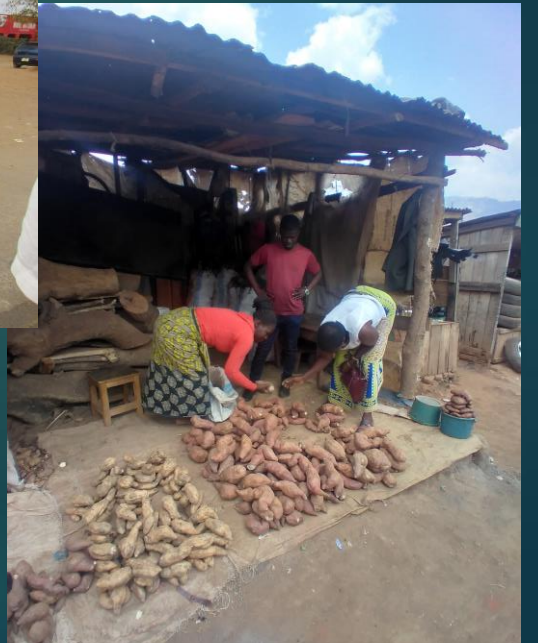

sewing machine for another sister somewhere in the world. Our program is designed to self perpetuate. Currently, the women in Blantyre, Malawi have raised enough funds from their proceeds to send a machine to Mozambique, sharing in kind the help they received.

**Won't you join us in support
of these wonderful women?**

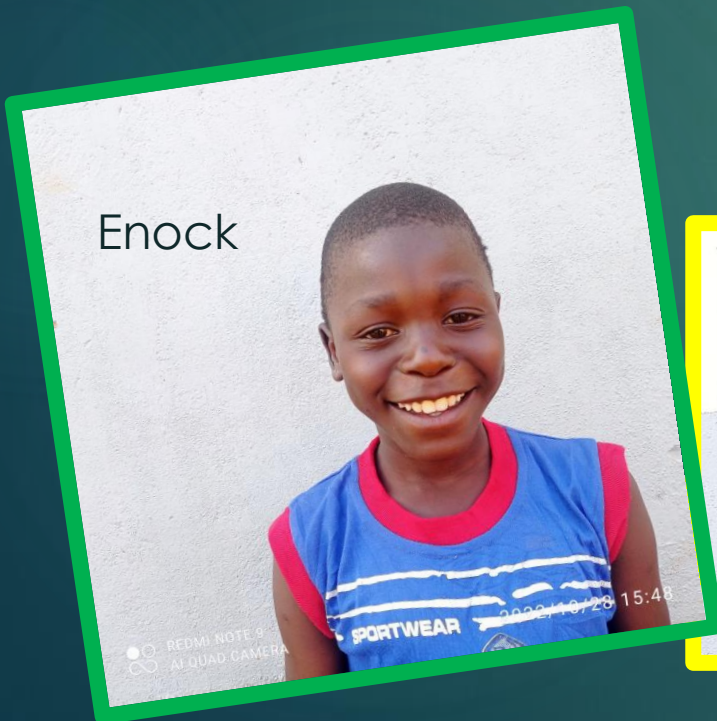

Corporate Sponsors are amazing!
